About

<http://edopperman.blogspot.com/>

Ed Opperman President and senior investigator of Opperman Investigations Inc, a private detective agency based in Colorado is also President of Accurate Information Recovery. A computer and cell phone forensics examination and data recovery company based in Nevada.

Having grown up on the tough streets of the South Bronx in NYC, Ed learned at an early age how to navigate between both sides of the law. He negotiated his way from street gangs to the college campus. Earning his degree and certification in Paralegal Studies on the CSI campus in Staten Island New York.

Ed has worked in the investigations field since the early 1980s first as an information broker and later in counter electronic surveillance. Working for the defense with some of NYC's top law firms and private investigators in many high profile organized crime cases. Later he teamed up with 2 retired NYPD Detectives to do employment and background screening Investigations.

In 1997 using his experience in telecommunications Ed began to investigate and trace emails back to the sender. He was able to use these techniques to locate and identify an organized group of Usenet cyber stalkers that were at the core of a 60 million dollar defamation lawsuit.

In 2003 Ed teamed up with the 'founding fathers' of Cell Phone Forensics and digital data recovery. These men were fresh from the fields of Afghanistan hot on the heels of international terrorists. At the time this was a technology that was extremely cutting edge. Ed soon made a name for himself in this area and has become the leading provider of this type of Digital Forensic Investigation Ed and Emailreveler.com have been chosen to examine the cell phones in the Tiger Woods infidelity investigation. His services have been used to investigate allegations of infidelity launched against Aston Kutcher and Todd and Sarah Palin

It is with great pleasure that I recommend Mr. Ed Opperman for any job and position.

I have consulted with him on several important issues and found him to be very trust worthy and maintain

high moral Christian values in his work.

I have personally retained him to do some investigative work for our ministry.

He reminds me of my late Father who was an accident reconstructionist and also a world class private inves-
