"This is an absolute negotiating chip," Opperman said. "She wants a pardon, a reduction in sentence, a commutation."

For those that don't know...
In 1984, Donald Trump molested a friend of ours in the China Club, NYC where he arranged for a modeling agency to send 6 of its 16 yo models in the states from Russia on work visas. A VIP room was set up as a place to trap these girls and grab them while his bodyguards watched and protected the single door access. We meet her outside and gained access to the club with her help, we were 16 yo too.
She came running out of that room yelling that she was hurting and told us what happened immediately. We told management but then got booted from the place... because we were not the sons of millionaires.
Recently, the Epstein files describe these "parties" in detail.
Not only was Trump with Epstein during rape of young girls but Donald Trump was the original architect of these type of parties.
What is evident, Melania was more "into" the groping than other woman.
You are welcome to unfriend me if this bothers you but you are going to miss lots of other posts that are pretty cool stuff.

This is Victoria, she met Paolo at Mara Lago and is friend with Trump's grand children. Paolo raped her in October of 2023 after

a UN event. She made a police report and NYPD has record of this happening
